Note

why do we fear? why do we
[illegible] and why do I want
[illegible] and

[illegible] people to make their own
[illegible] life choices if you
[illegible] trying to help you're not
[illegible] to decide you disagree with
[illegible] doesn't mean its wrong.

[illegible] you realize the things and
[illegible] you have to accept and
[illegible] of only after will you
[illegible] to live freely. We all
are going to die so it is up to
you to decide whether or not
you want to live or sit
and watch life live by you.

[illegible] difficult for me to
understand the affair that I am
currently experiencing. we are
here, why are we? why
do we need purpose and
pleasure. why I am I left
behind and fragile after
an experience. Do I not
love myself, why was it
