

WEEKLY JOURNAL-MINER

PIONEER PAPER OF ARIZONA

PRESCOTT JOURNAL-MINER, WEDNESDAY MORNING, NOVEMBER 5, 1919.

FIFTY-SIXTH YEAR

Record Crowds Attend 15th
Annual Arizona State FairPATTERSON WINS
AIRPLANE RACE
FROM COAST

(By Associated Press)
PHOENIX, Nov. 3. — Arizona's 15th annual state fair opened here today with record crowds, representative of the entire state, varied and extensive exhibits, a big program of sports including several novelties and numerous social events.

It was estimated 13,000 persons attended. There were 10,981 paid admissions.

Patterson Wins Air Race.
The El Paso to Phoenix road race occupied first place in public interest. Then there was the finish of the airplane race which started Saturday from Ince field, near Venice, California. The four machines, piloted by Howard Patterson, Frank Clark, H. J. "Swede" Meyerhoffer, and Lieutenant J. H. Goldworthy, left Yuma on the last lap of the race at 11:20 this morning. Patterson, the winner, landed on the fair grounds at 1:15, followed at intervals of about a minute by Clark, Meyerhoffer and Goldworthy, in the order named.

Clark was disqualified for failing to circle the field before landing, so second and third places officially went to Meyerhoffer and Goldworthy.

2:13 Trot.
The 2:13 Trot, the \$5000 Copper Stakes, was the principal event on the racing card. Edith Carter was first; Barbara D., second place, and Lou Todd took third money. The time for the three heats was 2:07 1/2, 2:08 and 2:08 3/4.

2:08 Pace.
The 2:08 Pace, for a \$1500 purse, was won by Leata J. Calgary Earw second and John Malcolm was third. Time—2:05 1/2, 2:02 3/4, 2:07 1/4.

2:20 Pace.
Sister Norte won the 2:20 Pace, for a \$2500 purse, Harry Mack being second and Doubtful J. third. Time—2:11 1/2, 2:08 1/4, 2:09 1/4.

Arizona Derby.
The best running race of the day was the Arizona Derby, a one-mile event, won by C. W. Hodges, Harvest Fly was second and Charles J. Harvey was third. The time was 1:44.

BEAT YAQUIS IN
TWOCHIHUAHUA
CONFLICTS

(By Associated Press)
DOUGLAS, Nov. 3. — Lieutenant Colonel Gilberto R. Limon, commanding the 44th Battalion of infantry and a squadron of the 5th Cavalry regiment of the Mexican federal forces, dispersed 200 Yaqui Indians in two engagements according to his official report to General Juan Torres.

The first fight was on the Sonora river near the Chihuahua state border and the second a little to the southward. The Yaquis left seven dead and one wounded in the first fight, while the federal loss was three killed. In the second fight, three Yaquis and one federal were killed.

MINERS ASK PROTECTION
WALSHEBURG, Colo., Nov. 3. — Two hundred and seventy-six miners, through their secretary, today telegraphed Attorney General Palmer at Washington asking his aid in securing troops to protect them. The men declare they want to work, but fear violence unless troops are sent here. Colorado state officials maintain that Sheriff Neeley of Huerfano county can handle the local situation and that the presence of troops might result in a clash similar to that which occurred here during the last Colorado strike in these fields.

ILLINOIS MINERS SOLID
SPRINGFIELD, Ill., Nov. 3. — Solid adherence to the strike program of soft coal miners was manifested throughout Illinois today, according to Frank Farrington, president of the Illinois district. Operators here, who are watching the situation, admitted that their reports showed all mines of the state closed down.

MILLER OF PHOENIX ROARS IN
WINNER FOR SECOND TIME OF
EL PASO RACE; THREE KILLED

(By Associated Press)
PHOENIX, Nov. 3. — Hugh B. Miller of Phoenix, driving with remarkable skill and steadiness, outclassed all competition and won this afternoon in record time the trans-desert classic, the El Paso to Phoenix automobile road race, an event overcast with three tragic deaths.

Two were killed today. They were S. O. Bottorff, driver and his mechanic, Floyd Brown, both of El Paso. They met death when their car overturned about a mile and a half west of Vail in rounding a sharp curve. The bodies were taken to Tucson.

13 Hours, El Paso to Phoenix.
Miller whirled into the state fair grounds here at 1:19, covering the 504.8 miles in 13 hours, 10 minutes, actual running time.

R. A. Durio, Las Cruces, New Mexico, was second, arriving at 2:05. His time was 13 hours, 59 minutes.

W. J. Taber, Tucson, was third. His running time was 15 hours, 32 minutes.

Miller's speed averaged 41.3 miles per hour. He had made the best previous time for the course in 1914, this being 37.1 miles an hour.

Durio's average was 39.2 miles per hour, and that of Taber, 34.8 miles.

Campbell Presents Cups.
Miller was cheered by thousands when he drove up to the finish line. Governor Thomas E. Campbell presented him with two handsome silver cups and later in the afternoon Miller was handed a check for \$8,451.10 or 70 per cent of the purse of \$12,073.

Durio received \$2,414.00, or 20 per cent and Taber's share as third man was \$1,207.30, or 10 per cent.

Charles T. Goldstrap of Phoenix finished fourth, running Taber a hard race for third place. He arrived at 3:38 and his average speed was 34 miles an hour. Hoyt Medlar of Globe was fifth arriving at 3:28. His average was 30.1 miles per hour.

The sixth man was C. W. Gilpin of El Paso, who crossed the line at 3:44, making an even 30 miles an hour. Goldstrap's running time was 5:42, Medlar's 17:59, and Gilpin's 18:04.

The next four men to finish in point of time were Charles Fawcett, El Paso, 4:35; Roy A. Lester, El Paso, 4:37; M. L. Naquin, El Paso, 4:45, and D. D. Griffith, Phoenix, 5:00.

Most of the cars that failed to finish were eliminated because of mechanical trouble, though several drivers withdrew when they saw they had no chance of winning.

Aside from the fatal wreck near Vail there were no serious accidents. F. Babcock of Phoenix suffered a broken shoulder when his car turned over yesterday.

John T. Hatchings of El Paso met death shortly after he left the starting line thought his death was not a racing fatality in the ordinary sense as he was shot by one of a party of four men and four women, the motive for the shooting being in doubt. The eight persons are held in connection with the death.

BULGARIAN IN "CAN"
WALSHEBURG, Colo., Nov. 3. — The first sign of disorder in the Huerfano coal field was promptly met by the United States government late yesterday when Immigration Inspector or Mansfield of Denver took M. C. Rouse, an unaturalized Bulgarian, into custody here. Rouse, according to information received by Mansfield, has threatened to burn several mines in the district if the men employed there went to work.

MORE TROOPS CALLED
TRINIDAD, Colo., Nov. 3. — Two more detachments of national guardsmen moved today from Trinidad to coal camps northwest of this city. A strong guard was thrown about the plant of the Trinidad Electric company, which supplies power and light for mines as far south as Raton, New Mexico.

TEACHERS CONVENE
PHOENIX, Nov. 3. — More than 700 teachers were in attendance here today on the opening of a two days' convention of the joint county teachers' institute. The counties represented are Mohave, Pinal, Maricopa and Yuma.

Aguilar Says
His Machine
Also Shot Up

(By Associated Press)
EL PASO, Nov. 3. — Near the spot where John T. Hatchings of El Paso, who took part in the El Paso-Phoenix automobile race yesterday, was fatally shot, at Lanark, New Mexico, the car driven by Abe Aguilar, also of El Paso, was struck half an hour before by a bullet and put out of commission.

This is according to a statement here tonight by Aguilar's mechanic, J. N. Lucero. Lucero's statement was later confirmed by Aguilar who said he saw two men apparently intoxicated fire in his direction as he sped by.

"I do not think the shooting was accidental," Aguilar said.

Aguilar, who returned here tonight, added he would make an inspection of his machine tomorrow and would file a report to the chamber of commerce, under whose auspices the race was held.

COAL SHORTAGE
NOT COMING;
IT'S HERE

(From Tuesday's Daily.)
The coal strike, if it affects the Gallup fields, or causes seizure of coal stocks therefrom will not affect Prescott just yet. Not that the coal bins of Prescott are so well stocked, but because nothing from nothing leaves nothing.

No shortage can be piled on top of a shortage already existing, and do any immediate new harm.

Prescott coal dealers, it is reported, are in possession of but a few tons of coal out of the numerous carloads of the commodity they ordered long ago in anticipation of the keen winter demand. One dealer had 11 cars due in October, received six or seven, and by the 25th of that month, had but a few tons left in his warehouse.

The coal shortage is not coming. It is already here for Prescott, apparently. Nothing for it but to go out in the hills and bring in a lot of pine trees for the home demand this year, the only drawback being that with teams and labor so high, stovewood will cost pretty near as much a finely finished flooring.

ROAD CAMP IS
MOVED UP TO
MINGUS PEAK

(From Tuesday's Daily.)
Bo J. Whiteside, of State Engineer Maddock's force on the Prescott-Jerome highway, was compelled to come to this city Sunday on account of illness caused by the high altitude of the new camp recently established on the Jerome side of the summit. He will spend a few days in this city, stopping at the St. Michael.

Under the direction of Foreman O'Connor, the work is progressing rapidly, and if the weather holds good it will not be long until the working force can see the lights of Jerome.

DEADLOCK
IN TREATY
DEBATE

(By Associated Press)
WASHINGTON, Nov. 3. — Further indications that the peace treaty fight may lead to a continuing deadlock developed today while the senate leaders were trying in vain to fix a definite date for a roll call on ratification.

Administration senators, suggesting that the final vote be taken this week, indicated a purpose to defeat ratification by combining with the treaty's irreconcilable opponents, should reservations adopted by the foreign relations committee be written into the ratification resolution. Whether the administration forces then could present an alternate resolution under senate rules was brought into question by the republican leaders, who predicted that even if such a resolution got consideration, it, too would be voted down.

An hour of debate on the subject got nowhere and the senate went back to its consideration of treaty amendments. It may reach a vote tomorrow on that by Senator La Follette, republican of Wisconsin, to strike out the labor provision and, unless some new plan is devised to hasten action, other amendments and a long list of proposed reservations will be taken up under the tedious rule of unlimited debate.

The administration proposal for a vote this week was presented by Senator Hitchcock of Nebraska. The democratic leader after he had blocked one by Republican Leader Lodge, calling for a final vote on November 12th. Mr. Lodge in turn blocked the administration program which would have provided for a vote Thursday on the committee resolution with its reservations and would have left Friday and Saturday for consideration of any compromise resolution agreed on by the democrats and "mild" reservation republicans.

Military Controls
Coal Districts Of
New Mexico State

(By Associated Press)
SANTA FE, Nov. 3. — Governor Larrazolo of New Mexico this morning placed the counties of Colfax and McKinley, in which there are big coal mines, under martial law.

Federal troops will maintain order in these counties, four squadrons of cavalry leaving El Paso yesterday afternoon for Gallup, McKinley county, and 600 more troops were requested by the governor for service in Colfax county. All coal mines in Gallup except those of the Gallup American company have been closed down, according to reports received here, and there has been a walkout in practically all coal mines of St. Louis, Rocky Mountain and Pacific companies in Colfax county, at Vanhook, Koehler, Brilliant, Sugarite, Swastika and Gardner.

WILSON DOES SOME WORK

WASHINGTON, Nov. 3. — After three days of rest from executive business, President Wilson was expected to do some work today, as several bills and other affairs were awaiting his attention.

Senator Hitchcock, administration leader in the peace treaty fight, desires to discuss reservations with the president and an engagement may be made for him within a day or two.

40,000 OUT IN OHIO

COLUMBUS, Nov. 3. — Coal mines of Ohio, employing 40,000 union miners are closed and no attempt will be made to operate them until some agreement is reached and the strikers return to work, according to W. D. McKinley, secretary of the Southern Ohio Coal Exchange, the operators' organization. McKinley said so far as he knew every miner in Ohio is on strike.

WEST VIRGINIANS BACK.
WASHINGTON, Nov. 3. — The first break among the union miners occurred today in the Northern West Virginia fields, according to a message from Huntington late today to Washington headquarters of the operators. In that district 15 mines were reported in operation.

GOVERNMENT SEES HOPE OF ENDING
COAL STRIKE SOON; MINERS CLAIM
OPERATORS ADMIT FULL PARALYSIS

(By Associated Press)
WASHINGTON, Nov. 3. — Official Washington was firm in the belief tonight that the end of the coal strike was near.

Confidential reports were said to show many defections from the ranks of the strikers. Some of the reports said large numbers of idle miners had declared they wanted to return to work but were afraid. In this connection, officials reiterated that adequate protection would be given.

Scattered reports from the fields reaching into 28 states showed the first break in the ranks of organized labor in West Virginia and Colorado. Advices to Washington headquarters of the operators said that all non-union mines were working to full capacity and turning out considerably more coal than on Saturday.

Attorney General Palmer, handling the main end of the government case, went to Pennsylvania tonight feeling it was said, that the crisis might be over before Saturday, the day on which the temporary injunction restraining officers of the miners' organization from activity, was made returnable.

No disorder was reported anywhere.

NO TEST ON MONDAY

CHICAGO, Nov. 3. — Today, the first real test day in the nation-wide strike of bituminous coal miners, passed without a break of any consequence in the general cessation of production, despite the inactivity of the leaders of the United Mine Workers of America because of the government's restraining order.

During the day there was a further movement of troops into affected areas, although only one disturbance was reported. Although there was a break among union miners in the West Virginia fields where it was said 13 mines were in operation, miners and operators alike asserted the production of soft coal was paralyzed.

It also was reported that some union miners resumed work in one Colorado mine when operators and union officials agreed on a settlement, whereby operators would make such wage increases as were later made effective in the Eastern fields. Non-union mines in Pennsylvania and West Virginia were in operation today with almost the usual working forces.

Union leaders admitted that because of the restraining order, they were doing nothing to induce non-union workers to walk out.

In Ohio five or six stripping companies were operating. With approximately 425,000 miners idle, according to union leaders' claims, conceded by most of the operators, consumers were beginning to feel the effects of the strike. Thousands of cars of coal were being confiscated by the United States Railway Administration.

A few schools were closed in remote places and in a number of communities electric companies were affected.

Swindle Freed; To
Put on Contest

(From Tuesday's Daily.)
Apparently having "squared" accounts with the Kingman publican, Al Swindle, arrested at Humboldt last week on a charge of issuing a check against an account in which there was no money, has wired that he will return to Humboldt to continue arrangements for staging a boxing match tomorrow night.

Swindle put on bouts here and at Jerome, and was on the Humboldt job when Sheriff W. P. Mahoney interfered. It was announced yesterday that the battle between Sgt. Lynch of Whipple, and Battling Parker of San Bernardino, will go ahead in the Humboldt theatre as originally planned.

Alleged Deserters
Taken at Winslow

(From Tuesday's Daily.)
Harry Quinn, aged 19, and M. Haskins, aged 24, alleged deserters from the United States army, were brought to Prescott Sunday from Winslow in custody of a Santa Fe special policeman, and temporarily lodged in the county jail. Later, it was planned to transfer the two to military control at Whipple Barracks, this being the nearest army establishment, where, under the law, persons suspected of desertion are supposed to be turned in. The two young men were said to have drifted into Winslow, where their actions excited suspicion and they were questioned.

BISBEE LEGION RED CROSS ROLL
WAGES WAR
ON H.C.L.

WAREN, Ariz., Nov. 3. — L. A. Engle Post of the American Legion has enlarged the scope of its activities to include a fight against the high cost of living. The fight is being successfully waged, according to a statement issued by Ira E. Joralemon, chairman of the "High Cost of Living committee" of the post.

The post established August 30th at Lowell an open air municipal market to serve the people of the district including that city, Warren and Bisbee. The ranchers were skeptical the first day and although the opening of the market had been well advertised only 18 small truckloads of produce were taken there by ranchers of the nearby valleys. But the fact that the produce was disposed of by 11 o'clock that morning inspired confidence and since that time the sales have averaged from \$1500 to \$2200 each Wednesday and Saturday, the two market days.

"The ranchers," according to Mr. Joralemon's statement, "sell a lot of stuff they otherwise could not dispose of, since the stores buy principally from the larger ranches which can guarantee a steady supply. The people get absolutely fresh produce at prices averaging less than 60 per cent of prices they previously had to pay."

The county supervisors, Mr. Joralemon said, have agreed to provide funds for a suitable building for a permanent municipal market to be operated by the "High Cost of Living committee" of the post.

NO MOVE BY U. M. W. A.
TO ENLIST NON-UNIONS

PITTSBURGH, Pa., Nov. 3. — No effort will be made by the United Mine Workers of America to have non-union miners in the Pittsburgh field join the strike until after the injunction proceedings in Indianapolis have been disposed of, according to union officials here today. "There is nothing to be gained by such a move now," they said. Reports from Central and Southern Pennsylvania showed no change in the situation. Union mines, it was said, were closed tight, while work generally has been resumed in non-union mines.

No attempt was made by operators to work the coal mines in the unionized territory of Central and Western Pennsylvania today. The operators declared there will be no effort to operate until the miners show a disposition to return to work.

Strike headquarters here claim there are 48,000 men out in the Pittsburgh district, and 60 per cent of the unorganized miners are idle.

ANOTHER MOHAIR DEAL

(From Tuesday's Daily.)
S. W. Holder, visiting the city Sunday from Kirkland, stated he had closed a deal for over 70,000 pounds of mohair at 54 cents net, with a San Antonio, Texas, firm, there being eight beside himself who are interested. The quality of the fleece was pronounced by the buyer as the best ever clipped in the Southwest and the price paid was the highest. This deal closes one of the best seasons ever known in the goat industry, and represents a total output of mohair to date in that region of over 270,000 pounds, or in value \$145,000.

RED CROSS ROLL
CALL STARTED
IN PRESCOTT

(From Tuesday's Daily.)
Red Cross roll call work began yesterday in Prescott with the object of quietly accumulating the festive dollar from each old and a large number of new members. Patriotic women are to take spells at the table in front of the B.-B. store, where memberships will be received.

Prescott has always supported this institution with enthusiasm, and the annual drive this year under the management of the Rev. George C. Golden is expected to take the city over the top without much trouble.

Final reports from Red Cross chapter leaders throughout the Pacific division on the eve of the Third Red Cross Roll Call indicated virtually 100 per cent preparedness for the drive and a spirit of enthusiastic rivalry between the chapters for the honor of being the first to exceed last year's total of dollar annual memberships, says an announcement from division headquarters at San Francisco.

"The war may be over, but not the Red Cross," has been taken up as a rallying cry by the hundreds of chapters in California, Arizona and Nevada. Far from abating the activity which marked their loyal service during the war, the chapter workers have almost without exception recognized the great need for continuing the vast war service machine built up by the Red Cross under stress of national emergency and devoting its energies to the solution of peace time problems.

YEAGER CANYON
CAMP NEEDING
MORE MEN

(From Tuesday's Daily.)
Yeager Canyon road camp is still looking for men, according to a letter received by the adjutant of the American Legion here yesterday from Charles O'Connor, general foreman. Some time ago, an appeal was made for the services of ex-soldiers as laborers and truck drivers at the Yeager camp, now better called the Mingus Mountain camp, and while there was some response, a number of men failed to get in touch with the job owing to the fact that the directions were not specific.

O'Connor can be addressed care State Road Camp, Yeager Canyon, and will direct applicants how to get to the work. In his letter, he says: "At the present time, we are looking forward to six or eight weeks of good weather and if there are any ex-service men who want employment as skimmers or laborers, I will be very grateful to you if you will give them our address. The wages paid here are \$4 a day and up, and \$1.20 per day for board."

WASTED STEAM

SHERIDAN, Wyo., Nov. 3. — Whistles blew at mines in the Northern Wyoming field today, but no miners reported for duty.
