The book cover is a vibrant green with a fine, woven texture. A central vertical panel, outlined with multiple parallel lines, contains the title and author's name. This panel is flanked by large, stylized geometric shapes that resemble double-headed arrows or chevrons, also composed of multiple parallel lines. The overall design is symmetrical and modern.

Maybe you will find
an idea in the following
pages, anyhow. If
you do not, just
give the book to one
of the girls.
