

eat well. advance science.

The Framingham State Food Study is now recruiting eligible students, faculty and staff for the second cohort, which will run during the 2015-15 Academic Year. It's an opportunity to eat healthy, lose weight, have all your meals prepared for you, receive financial compensation, and advance science.

To learn more about this groundbreaking study, attend an **Information Session** to speak to researchers and current participants.

- **Students**

Monday, January 26, 2015, 7:00 – 9:00 PM
North Hall (Parents invited)
