MEDALLION IS DONATED TO LEAGUE
The Framingham Social Suffrage League is proud to number among its members, Mrs. Meta Vaux Warrick Fuller, the sculptor. Mrs. Fuller has designed a beautiful medallion and donated it to the league. It is her contribution to the suffrage campaign. On it are 3 heads in profile—a man, a woman and a child—with this motto from an old poem: "Each unto each the rounded countenance." It beautifully typifies the message of equal suffrage without having any of the limitations of propaganda. It will be a thing of beauty and a message of truth long after the vote is won throughout the country. The medallion is now being finished in ivory or white, measuring 3 1/2 inches in diameter.
Mrs. Fuller, who recently represented her work, which was recommended for a few years after her marriage and the birth of her little son.
She is especially interested in symbolic compositions and has made a number of portrait busts and reliefs. Her most important recent production is her heroic group entitled "Amazement," made in 1913 for the Metropolitan Museum of Art to celebrate the 50th anniversary of Negro Freedom.
She also contributed Mrs. Fuller was a student in Philadelphia and Paris and later worked in her own studio in her native country. She exhibited in the Paris Salon, the Exposition of Woman Painters and Sculptors, Paris, the Philadelphia Academy of Fine Arts.

CONTRACTORS ARE EDISON CO. GUESTS
Framingham Man Is Named Upon the Committee Chosen at Boston
"Everybody Shout for Electrical Prosperity Week" was the slogan at the dinner in the welfare building of the Edison Company's Massachusetts avenue plant, at which 200 electrical contractors from Boston and vicinity were guests and heard President Wilson's address outlined at the meeting of the sales and educational campaign to be carried on Nov. 25-Dec. 4.
L. D. Gibbs, advertising manager for the Edison Company, who presided, said that the work being done in New England during the nation-wide campaign was the Society for Electrical Development which has been organized, because of its educational value by President Wilson, several governors and many other prominent men. The Edison Company alone, he said, will spend nearly \$2,000,000 during Electrical Prosperity week in New England to bring before the public the many benefits which will be derived from the use of electricity.
The principal address of the evening was made by H. W. Alexander of New York, who told the contractors how they could co-operate in the general publicity and safe scheme, and gave practical suggestions concerning advertising displays, and educational propaganda. Practically all the aids, flyers, stamps, etc., used during the campaign, have been engraved by Electra, the goddess of electricity.
The Boston and Massachusetts Electrical Contractors Societies were well represented, and a large number of independent engineers also identified themselves with the campaign. They have each given the following committee from the contractors to co-operate with the representatives of the Edison Company in perfecting the local plans:
H. H. S. Porter, William S. George and Walter Jacobs of Boston, E. Robinson of Framingham, Mel C. Brown of Framingham.
It is estimated that over \$200,000 will be expended in this country in preparation for and in carrying out the plans for Electrical Prosperity Week.
